# Welcome to USPATH2023

Dear Colleagues and USPATH Members,

On behalf of the USPATH Board of Directors, it is my distinct pleasure to welcome you to our **4th Biennial USPATH Scientific Symposium**, held this year in beautiful and welcoming Denver, Colorado.

I am pleased to tell you that this is the largest USPATH Symposium yet, with more than 770 live and 180 virtual registrants so far. This represents a significant increase over prior Symposia, and I expect we will grow even larger in the future as the demand for and interest in cutting edge science and medicine in the field of trans and gender expansive healthcare continues to grow.

I am also pleased to announce that the USPATH Board has achieved a number of goals in advance of this Symposium, including finalizing a revision of our Bylaws, and a restructuring of the Board Executive Committee to better suit the needs of the organization. We look forward to sharing more about these and other developments during the Symposium.

The staff of USPATH, our Board, and the dedicated members of the Scientific Committee are thrilled to have so many of you joining us this year.

The Scientific Committee, led by Chair Dr. Henry Ng and Co-Chair Dr. Thomas Satterwhite has worked diligently to create an exciting and cutting-edge scientific program for you. Our staff has worked tirelessly to make all of the arrangements needed to convene a conference of this size and scope.

So, again, WELCOME to Denver! We look forward to sharing this exciting and uplifting convening with each of you. We trust that this Symposium will continue to further visibility, respect, access to quality care, and human rights for transgender and gender expansive people across the US. We hope you have a fabulous time!

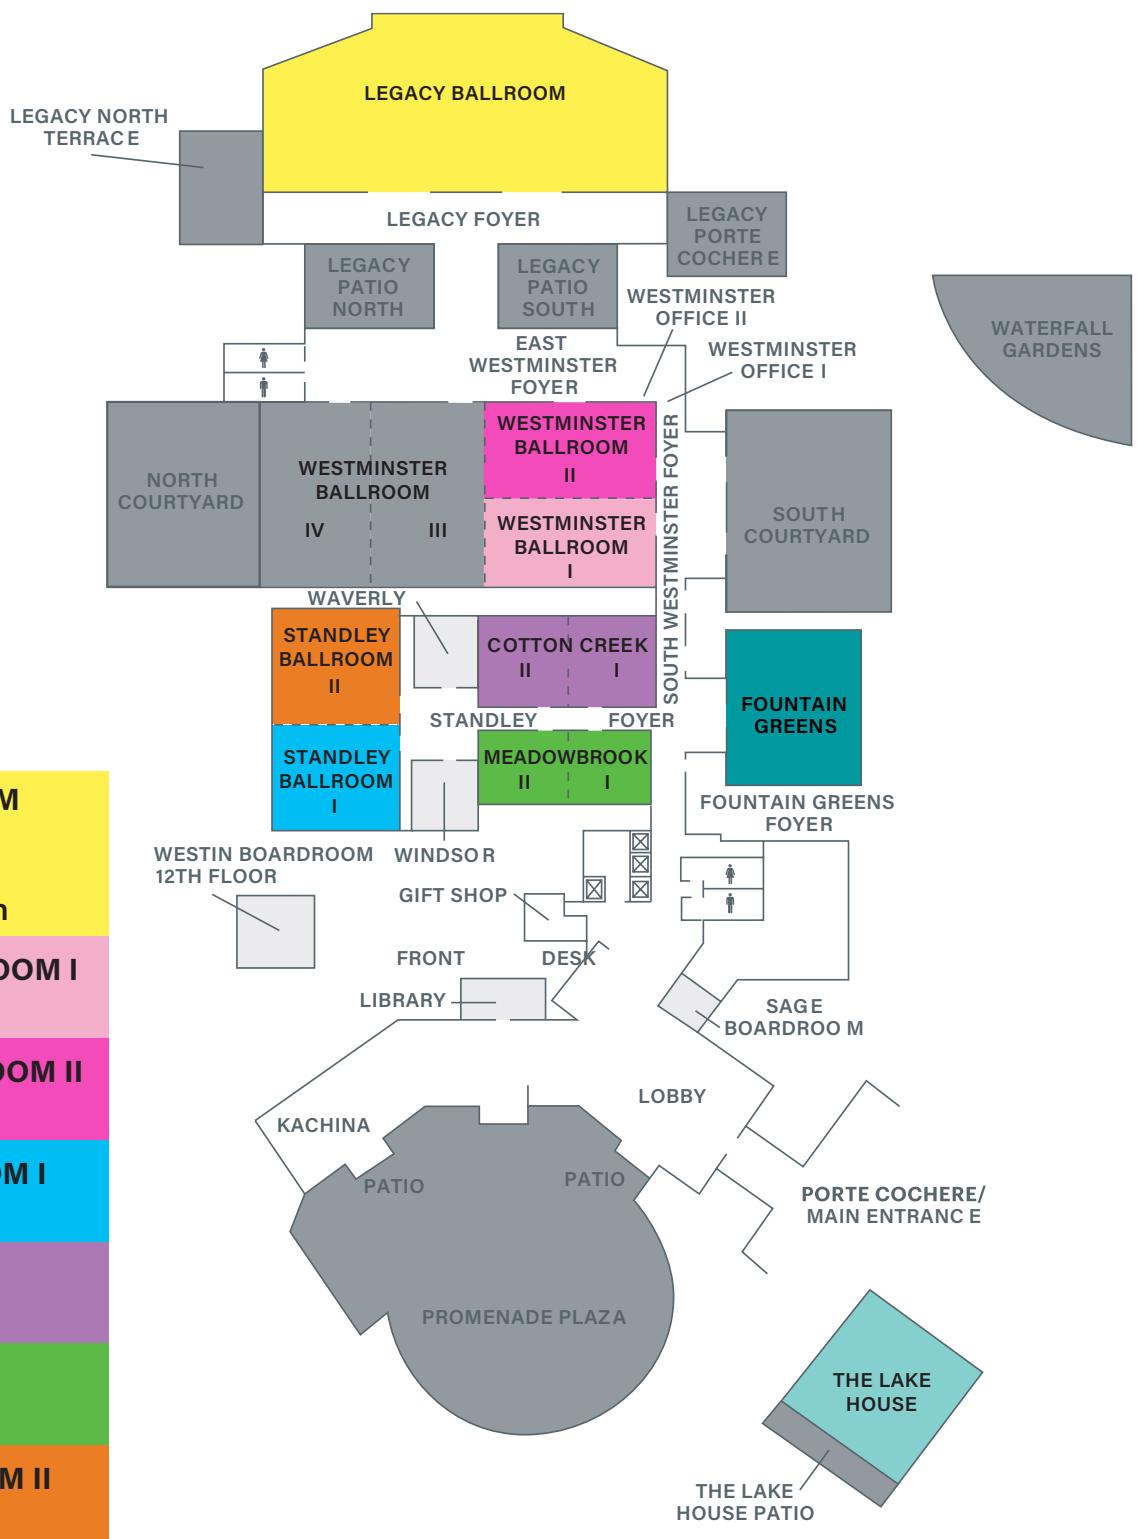

With gratitude and warmth,

*Maddie Deutsch*
